## SHOWCASING PERDICTION ON UI

Team ID	PNT2022TMID36951
Project Name	Crude Oil Price Prediction

The screenshot shows a web browser window with multiple tabs open. The active tab displays a registration form titled "Register Here" in orange text. The form is overlaid on a background image of an industrial refinery tower at night, illuminated with orange and blue lights. The form fields are as follows:

- First Name :** Enter Your First Name
- Last Name :** Enter Your last Name
- Your Age :** How Old Are You
- Email :** Enter Your Valid Email
- Gender :** ☐ Male ☐ Female

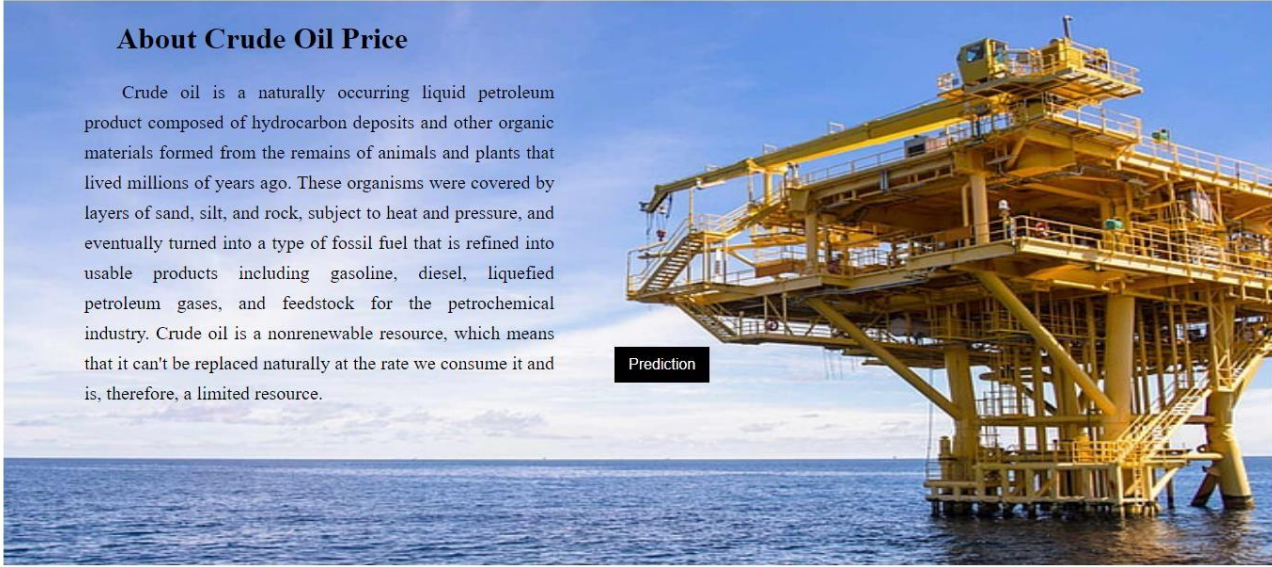

A blue "Submit" button is located at the bottom of the form. The browser's address bar shows the file path: C:/Users/Ramya/Desktop/Application%20Building/Create%20An%20HTML%20File/HTML%20FILE/register.html. The Windows taskbar at the bottom shows the search bar, task view button, and several application icons. The system tray on the right indicates the temperature is 68°F, the weather is clear, and the date is 10-11-2022.

CRUDE OIL PRICE PREDICTION

File | C:/Users/HP/Desktop/html/Kavin/index.html

## About Crude Oil Price

Crude oil is a naturally occurring liquid petroleum product composed of hydrocarbon deposits and other organic materials formed from the remains of animals and plants that lived millions of years ago. These organisms were covered by layers of sand, silt, and rock, subject to heat and pressure, and eventually turned into a type of fossil fuel that is refined into usable products including gasoline, diesel, liquefied petroleum gases, and feedstock for the petrochemical industry. Crude oil is a nonrenewable resource, which means that it can't be replaced naturally at the rate we consume it and is, therefore, a limited resource.
